SANCREA

HOTEL-RESTAURANT-CAFE-PROJECT

Sancrea umbrellas are designed to create a perfect balance between aesthetics and functionality in outdoor spaces. Each piece features refined proportions, a timeless design language, and carefully considered details that enhance the architectural identity of its surroundings.

Built with a durable structural system, Sancrea umbrellas offer high resistance to outdoor conditions, while premium quality fabrics provide effective sun protection. With wood and metal support options, they seamlessly blend natural warmth with modern elegance ideal for hotels, restaurants, beach clubs, and bespoke projects.

SANCREA
HOTEL-RESTAURANT-CAFE-PROJECT

Every umbrella begins with a skilled hand, a trained eye, and years of craftsmanship. From the careful stitching of the fabric to the balanced wooden structure, each detail is shaped with intention.

Defined by Quality.**

Shade Born from Design

Sancrea umbrellas are not simply manufactured products; they are the result of a design process that begins at the designer's drawing table. Every form, proportion, detail, and mechanism is shaped through an architectural perspective, carefully considering how it interacts with space. From initial sketches to final production, aesthetics, durability, and functionality are developed together. Each umbrella becomes more than a source of shade; it becomes a refined architectural element that enhances its environment.

*At Sancrea, design is not a style.
It is a deliberate approach.*

Designed for refined outdoor living, this premium cantilever umbrella blends architectural elegance with functional mobility. Its strong geometric form, smooth rolling base, and wide shade coverage create a perfect balance of style, comfort, and flexibility.
